Deputy Principal: Rebecca Rayner

New SMS Message Service

We have recently joined an SMS Message service called 160.com.au. We will be using this SMS service to alert parents/caregivers about special events, eg. Events such as sport which may need to be cancelled due to wet weather. It is hoped that the implementation of this service will alleviate any uncertainty around these events and enable us to keep our school community informed at all times.

We would like to send the SMS to the preferred mobile phone number for each family in the school and will be uploading our database based on the information we currently have on OneSchool. In the future, we will also set up database groups for each year level to avoid sending out unnecessary messages.

It would be appreciated if you could return the slip below as soon as possible so that we can ensure your preferred mobile contact number is included on our database. If you have a split family situation, please advise the second family contact details and we will also include this number if you wish this to occur.

.....**Please return to the school office as soon as possible**.....

Parent/Caregiver Contact Name:

Preferred Mobile No.:

This contact phone number relates to the following students:

Student Name: Class:

Student Name: Class:

Student Name: Class:
